A Time For Cleaning

JRI Industries Newsletter

JRI's Mini Rotary Drum washers use a combination of spray washing and immersion washing to clean the parts as they rotate inside the drum. Scott Yahn, from the Memphis branch, brought this device to the attention of Mueller Copper Fittings and with great results. Mueller needed a machine that could clean fittings 3/4" x 1.5" at a rate of two parts per second. The Mini was a perfect match!!

Vertical Door Washers

Highly efficient, space saving washers with turntable sizes available ranging from 21" to 42". Perfect for companies with limited space and smaller aisles.

JRI Double Basket

The Double Basket allows the customer to get the most out of their machine. The addition of the second basket doubles the production rate. An intermediate spray bar is added to the machine below the second turntable, with nozzles pointed up and down. In most scenarios a possible
